

HF8-6

- Up to **36,000** hr Rated Life (3 hr start) GE Lamps
- High Color Rendering of 80 (Metal Halide is 65CRI)
- Instant Restrike
- Operating temp is 110-120 degrees vs. HID at 1000-1200 degrees
- Compact Design: 22.75" x 48" x 3.217"
- Lower Overall Weight: Less than 15 lb with ballast and lamps
- Miro-4 Reflective Surface – 95% Reflectivity
- Electronic Universal Ballast 120V-277V
- Thermally Efficient in Extreme Temperatures
- Energy Efficient & Cost Efficient at 210 Watts
- Suitable for hanging at 10'-80 feet
- UL listed/CSA/CE Approved

GE Higher Lumen and Longer Lasting (#42556) 5000K Lamps F32T8/XL/SPX50/HL/ECO

- Per GE Catalog, lamp life is 36,00 hours, **6,000 more hours** than regular T8 lamps 42,000 hours w/ 12 hour starts
- Passes TCLP (Toxicity Characteristic Leaching Procedure) . Eco friendly.

GE Ultra Max High Efficient Electronic Ballast 120-277V (#78619)

- Exceeds NEMA Premium minimum efficiency requirements, 95% ballast efficiency
- -20 F Minimum Starting Temperature
- GE's "Ultra Cool " technology achieves maximum system performance in hot temps
- UL 55C Ambient rating (131F degrees)
- Active Current Regulations regulates the output to each lamp with individual lamp inverter modules

Fixture Design:

- BiPin Instant Start Sockets are ratched to secure lamp in position
- Corrosive resistant frame with extra bars for added rigidity and strength
 - End plates provide additional lampholder protection
 - Easy access to ballast channel from front side
 - Lightweight makes it user friendly
 - Venting for additional heat dissipation
- 8' Universal rated SJTW 3 wire 18GA cord w/ 110V straight blade plug attached,
 - Saves labor and installation time on job site.
 - "S" Hooks for hanging included

Mfgr's Warranty:	GE Ultramax Ballasts	5 Years	GE XL/HL Lamps	3 Years
	Alanod MIRO Reflector	25 Years	Fixture Components	20 Years

Options: Wireguards, coverguard lamps, quick hang aircraft cable hangers, and motion sensors available at additional cost. Can be modified for 480V. Also available in 4 lamp version, HF8-4.

Fixtures are packaged two per box, 40 per pallet. Lamps included but packaged separately.

A Small Investment in New Technology Can Be A Very Brite Idea
